

VILLAGE OF STIRLING FIRE RESTRICTION

Effective
Wednesday June 30, 2021

The Fire Chief for the Village of Stirling, has issued a "Fire Restriction" for the Village of Stirling due to the following conditions:

- Temperatures contributing to the fire risk.
- Wind speeds exceeding safe burning conditions at times.
- Lack of sufficient moisture levels, including high vegetation and low fine fuel moisture content.
- The potential for more fires.

A Fire Restriction is defined as:

All fires including low hazard (family style fireworks), exploding targets, burning barrels, charcoal briquettes, sky lanterns, and incinerators are not allowed.

The following fire are allowed during a Fire Restriction period:

- 1. Approved gas or propane cooking appliances;***
- 2. Portable propane fire pits;***
- 3. Recreational fire pits;***
- 4. Campfires burning within designated fire containment units located within approved campgrounds; and,***
- 5. Wood pellet fully contained smokers.***

The Village of Stirling will now refuse to issue new fire permits until the Fire Restriction is lifted, and any existing permits are hereby cancelled. All existing fires must be extinguished immediately. **No exceptions will be permitted.**

The Fire Restriction will remain in effect until further notice.
