

Alberta Health Services invites you to help us create a healthcare plan that will serve the communities of the South Zone for the next 10 to 15 years. As our communities and province grow and age, and the demands on the healthcare system evolve, we need to plan for the future of health services.

We will be hosting a series of engagement sessions throughout South Zone in the coming weeks. We invite you to join us in person or join us online at one of the sessions listed below to share your thoughts. Tell us what matters to you and the people in your community to help shape the future of healthcare in South Zone.

If you are not able to take part in one of the live sessions, we still want to hear from you! Please share your thoughts via our [online survey](#) until December 15.

To learn more about South Zone Healthcare Planning and keep up to date as the project progresses, we invite you to visit our online engagement portal on [Together4Health](#).

PLEASE NOTE:

*** In person space is limited.**

****Additional sessions are still to be confirmed. This list will be updated.**
